John and Hannah,

Attached please find and enter into the record the attached two supplemental exhibits in support of Applicant's Aggregate Expansion Request that is currently before the BOC (217-24-000197-PLNG).

These are being submitted to better show where Applicant's Fire Access Road is in light of recent testimony/photograph(s) submitted by Neighbor Sid Eves that suggested he observed Applicant mining outside of their permit boundary based on a photo of a "bulldozer" that was being operated on Saturday, December 7th, 2024.

When photographed, the Cat (bulldozer) was working to clear/maintain the Fire Access Road.

The revised Impact Study Map also includes detail measuring the distance from where Mr. Eves' resides, to the existing pit area.

Please confirm receipt.

Thank you,

Hannah Stevenson
