Road Update: Lane Restriction in Place on Mill Creek Road Due to Roadside Slide

On Monday, March 10, 2025, a small roadside slide occurred along Mill Creek Road near milepost 8.29, just north of the Steins Pillar parking area.

In response, Crook County Road Department crews have implemented a temporary lane restriction, reducing the roadway to one lane to ensure public safety. The affected section remains open to traffic in both directions, but travelers are urged to proceed with caution through the clearly marked and coned-off area.

County officials are actively monitoring the situation and will provide updates if further action is necessary. At this time, no full closure is anticipated, but safety remains the County's top priority.

Residents and visitors are encouraged to stay alert, reduce speeds when traveling through the area, and be prepared for minor delays.
