CROOK COUNTY HEALTH DEPARTMENT CELEBRATES
NATIONAL PUBLIC HEALTH WEEK

Creating the Healthiest Nation: For Science. For Action. For Health.
April 6, 2020– April 12, 2020

Everyone deserves to live a long and healthy life in a safe environment. To make that possible, we need to address the causes of poor health and disease risk among individuals and within our communities. Let's partner across public and private sectors to make sure decisions are made with the public's health in mind. Let's start new conversations with our neighbors and become advocates for positive change. Working together, we can build healthier communities and eventually, the healthiest nation.

Each day of National Public Health Week focuses on a particular public health topic, which we will post information about on Facebook throughout the week.

Monday: Mental Health
Tuesday: Maternal and Child Health
Wednesday: Violence Prevention
Thursday: Environmental Health
Friday: Education
Saturday: Healthy Housing
Sunday: Economics

Crook County Health Department works year round to provide vaccinations, WIC services, Reproductive Health, Food Safety, Home Visiting, and Health Promotion and Prevention services. We are proud to serve Crook County residents.
