**Re: Moffatt Road Solar Farm LLC Application File No. 217-24-000293-PLNG**

Dear Chair Warren and Crook County Planning Commission,

We are writing this letter in support of the proposed Moffatt Road Solar farm project off of SW George Millican Road. The project is adjacent to the Gala Solar project which has been in operation for many years and has provided valuable, clean, renewable energy to the grid.

The project will produce much needed power in our county and will advance the State of Oregon's Renewable Energy goals set by the Governor. The Moffatt Road Solar Farm will create about 200 jobs during construction and permanent jobs for a few on site in the future. It will also benefit local contractors and businesses in our community.

The project will bring Crook County tax revenue every year and help support the local economy using barren, non-producing land to produce something beneficial to our community.

With the growth of our large businesses in the area using large amounts of power for their operations, the county approving green energy opportunities locally is a benefit to all.

Best,

Kevin Spencer
